Universal robust rubber bellows seal with cup-mount seat to suit DIN seat housing sizes.

The rubber bellows design provides robust durable service for medium and heavy duty applications.

STANDARD FACE MATERIALS
Rotary Face: Carbon or Silicon Carbide.

Seat Ring: Ceramic or Silicon Carbide.

OTHER FACE MATERIALS AVAILABLE

Suggested Operating Limits

Pressure 200psi Speed 20m/s
Temperature -40 to +200°C

Limits are dependant upon shaft size, shaft speed, temperature, and media to be sealed.
