Metric shaft size, conical spring, direction dependent 'O'-ring mounted rotary with long style 'O'-ring mounted seat to DIN housing sizes. Please state rotation required when ordering. Suitable for medium pump duties.

STANDARD FACE MATERIALS
 Rotary Face: Carbon, RB Silicon Carbide, Tungsten Carbide.

Seat Ring: Ceramic, RB Silicon Carbide, Tungsten Carbide.

Maximum Operating Limits

Pressure 180psi Speed 15m/s
 Temperature -40 to +180°C
 Limits are dependant upon shaft size, shaft speed, temperature, and media to be sealed.
